

## *Environmental Policy*

*Labone Castleside view it as an essential function to recognise today's ever increasing environmental with relevant legislation, the requirements of ISO/14001 and perceived best practice.*

*We are committed to deliver & drive linked objectives by continually improving our work systems, procedures & practices in line with applied Environment Management System requirements.*

### **Our Aim:**

- *Commitment by senior management to sustain & drive continuous improvement activity in line with pre-set Environmental objectives & targets.*
- *That all sectors of company business function in ways that minimise Environmental impact and conserve natural resource.*
- *Recognition of compliance with relevant Environmental legislation, in the absence of such legislation, to operate in an environmental manner.*
- *To provide environmental training & / or awareness to all employees in environmental issues & effects through instruction, briefing & supervision.*
- *To raise company awareness that all employees hold a responsibility for the environment with which we have impact & such shall strive to minimise waste & incidence of contamination.*
- *The monitoring of progress & review of environmental performance in line with objectives & keep performance measures through planned audit. Structured reviews & sustained continual improvement.*
- *To encourage suppliers & / or contractors working with Labone Castleside to comply with company standards of practice & work towards a commitment of environmentally managed goods & / or service*
